Neuroscience Clinical Nurse Specialist

Green Bay, WI

Lead the Neuroscience team to clinical excellence through evidence based practice. This challenging full-time position provides the opportunity to network with an outstanding team of Advanced Practice Nurses to contribute to quality patient outcomes in a specialized area of nursing practice by serving as expert practitioner, educator, consultant, leader and researcher, and by implementing improvements in care delivery systems.

Masters degree in Nursing with current WI RN license, minimum of 2 years of professional nursing experience. Have successfully completed requirement to practice as a Clinical Nurse Specialist from the appropriate national certifying body. Current CPR certification required.

St. Vincent Hospital is the largest hospital in Green Bay and the surrounding area as well as a regional referral center providing advanced care services to Northeastern Wisconsin and Upper Michigan. In addition to providing general acute care, St. Vincent Hospital offers comprehensive services in a number of specialty areas including Cancer Services, Emergency Services, Cardiac & Vascular Services, Orthopedic Services, Neuroscience Services, Pediatric Services, and Women’s Services. St. Vincent Hospital is also an outpatient center providing a wide variety of outpatient services including outpatient rehabilitation, outpatient surgeries, a Center of Wound Care and Hyperbaric Medicine, a Breast Center, and an array of perinatal and pediatric outpatient clinics.

Green Bay offers a low cost of living, low crime rate, and a great school system all in a community that is small enough to know your neighbors, yet big enough to keep things interesting. Seasonal climate offers plenty of four season outdoor activities, sports, events, and tourism. Located just 45 minutes from picturesque Door County, Green Bay is a great place to call home.
