

Urgent Care Clinical Manager

Are you a highly motivated and organized individual? Do you have experience in a clinical setting and management? If you answered yes to any of these questions, then we want YOU!

Gundersen Health System delivers cutting-edge medicine to people in the Tri-State Region. We also believe that medicine is about people and that's why our outcomes are among the nation's best; making this a place you'd be proud to work.

The Onalaska Urgent Care Clinical Manager will be responsible managing the clinical services provided by the Urgent Care and Express Care in Onalaska and the Express Care in La Crosse. The Clinical Manager will oversee the employee performance to ensure an optimally functioning department. They will work collaboratively with the Department Chair to achieve department and unit strategic goals.

Candidates with 1 year management experience a plus!
