

Labor & Delivery and New Life Perinatal Clinical Manager

Join our dynamic organization where our vision is to enhance the health and well-being of our communities, while enriching every life we touch, including patients, families, and staff. Gundersen Health System is where nationally recognized quality meets dedicated, compassionate professionals, caring for patients in all stages of life.

Gundersen Health System delivers cutting-edge medicine to people in the Tri-State Region. We also believe that medicine is about people and that's why our outcomes are among the nation's best; making this a place you'd be proud to work.

Gundersen Health System is looking to hire a Clinical Manager for their Labor & Delivery Department and New Life Perinatal Department. The Clinical Manager provides management and oversees the delivery of specialized clinical services throughout Labor & Delivery including two operating rooms, a resuscitation room and a birth center. They will have the direct responsibility for managing employee performance to ensure optimal functioning in day-to-day operation and will work collaboratively with the Department Chair to achieve department and unit strategic goals.

Candidates with 1 year of management experience a plus!
