

Neurosurgery Clinical Manager

Join our dynamic organization where our vision is to enhance the health and well-being of our communities, while enriching every life we touch, including patients, families, and staff. Gundersen Health System is where nationally recognized quality meets dedicated, compassionate professionals, caring for patients in all stages of life.

We are seeking a Clinical Manager for our Neurosurgery, Physical Medicine & Rehabilitation, Pain Medicine and Injection Clinic areas. The position will have approximately 35 direct reports and work around 72 hours every 2 weeks. The Clinical Manager will also partner and work closely with the Clinical Managers in Neurology, Neuropsychology, and Speech.

They will manage the patient care delivery to ensure the highest level of safety and quality for the Neurosciences Ambulatory Clinic and have the direct responsibility for managing employee performance to achieve optimal functioning in day-to-day operation.

Candidates with 1 year management experience a plus!
