**Full Time with Benefits. Hours: Monday - Friday with additional hours as needed**

Primary responsibility for the oversight of ProHealth Care's comprehensive patient safety program and related quality improvement initiatives. Provides leadership and direction in the development of a culture of patient safety, measurement systems to determine the quality and safety of patient care, and facilitates initiatives contributing to process improvement. Provides organizational direction and education necessary to ensure that PHC clinical services are provided in accordance with standards of ProHealth Care's initiatives, Joint Commission, other regulatory standards, and National Patient Safety Goals.

### Qualifications:

- Bachelor's Degree in Nursing required. Master's Degree preferred.
- Current State of WI RN Licensure.
- At least 3 years of experience in a direct patient care healthcare setting.
- At least 3 years of related leadership experience. Previous managerial experience in a healthcare setting preferred.
- Knowledge of risk management principles and issues regarding patient safety.
- Knowledge of accreditation standards, health care regulations, process improvement, patient safety and policy formulation.
- Knowledge of infection control standards, regulations and processes.
- Strong interpersonal and communication skills.
- Previous experience with process improvement techniques.
- Previous experience implementing and facilitating organizational change preferred.
- Previous background in complex systems and cultural change preferred.
